

Financial Management Franchise Opportunity

United Kingdom

£19,750

80:20 Financial Management is a team of professionally trained, business-minded individuals who specialise in providing a highly valued bookkeeping and financial management service to small and medium sized businesses.

The service is unique and in high demand. The dynamic and pro-active methods used are redefining the way businesses view and value this oldest of professions.

The Strategy

To get the finances of small businesses under control by working alongside their own teams, giving them the guidance and support they need to run their businesses both efficiently and profitably. This is achieved by implementing systems and control measures aimed at avoiding problems and financial difficulties in the future.

Services Offered

- Accounting & Bookkeeping
- Payroll
- Financial Management
- Provision of Management Information
- Business Planning

LOCATION

The franchise can be undertaken from a home-based office in any location throughout the UK.

SUPPORT & TRAINING

- Training 80:20 believe that training is absolutely critical to the success of your franchise and have developed a training programme for new associates that will enable you to launch your business with confidence.
- Mentoring in addition to the training you will be given your personal mentor who is available at all times to give advice and guidance.
