

Specialist Clothing Retailer For Sale

Central Belt of Scotland, Strathclyde, United Kingdom

£49,000

Very well established niche market clothing retailer selling to elderly people by visiting sheltered housing, care homes and day centres. The business database has over 200 clients located in Scotland from Dundee to Carlisle with repeat bookings taken at visits. The business has two main road show seasons spread over 9 months, covering March to July (Spring/Summer clothing) and September to December, (Autumn/Winter). This business offers scope to expand by covering a wider area and having longer operating hours. It would suit an individual or couple with a caring personality who could relate to residents and staff. This is a "people" business and sincerity is much appreciated. The appointment diary currently has bookings from the beginning of April to the end of October 2008
