

Temperature & Process Control Instrumentation Business For Sale

North West, Lancashire, United Kingdom

£350,000

The Business Partnership is pleased to present the following opportunity:

This niche temperature control and instrumentation business was started in 1972 by the vendor and has traded as a Limited Company since 1992.

Trading is comprised of the, supply and configuration of a broad range of Temperature and Process Control Equipment including:

- Temperature and Process Controllers/ Indicators.
- Temperature and Process Profilers
- Limit Controllers and Timers

The company carries out virtually no marketing or sales activity, with the exception of limited industrial media listing and its own website.

Apart from the proprietor who works only three days a week there is only one full time employee.

Sales £400k

Net adjusted profit £150k

Price £350k plus net assets.
